Be it enacted by the General Assembly of the Commonwealth of Kentucky:

1 Section 1. KRS 56.491 is amended to read as follows:

2 (1) No state agency shall have power or authority to make plans and specifications,
3 provide public notice of invitations for bids, let contracts, or incur any financing
4 commitments, either in the way of a charge against public funds or in the way of
5 negotiations for issuance of revenue bonds, for any capital construction projects
6 involving the improvement of lands or the construction, alteration, reconstruction,
7 or major repair of any building or other structure, or sewage disposal or water
8 supply system, requiring the expenditure of more than two hundred thousand dollars
9 (\$200,000) without first securing the approval of the Finance and Administration
10 Cabinet.

11 (2) The state agency seeking the approval shall submit to the Finance and
12 Administration Cabinet a general description of the proposed project, with the
13 detailed information the cabinet may require. Review of construction plans for
14 conformance with the Uniform State Building Code shall be conducted by the
15 Office of Housing, Buildings and Construction. The Finance and Administration
16 Cabinet shall not approve any project requiring its approval in any instance if it
17 finds that: the project is not needed; the proposed method of financing is not sound;
18 the project will exceed the amount of the funds available therefor; the work
19 contemplated will be insufficient to accomplish the purpose of the project; or after
20 providing for the ordinary recurring expenses of government and debt service and
21 for payments under existing allotments for extraordinary expenses and capital
22 outlay, cash will not be available in the State Treasury to promptly pay for the work
23 during the biennium, or except as provided in subsection (5) of this section, that the
24 work is to be done by employees of the agency.

25 (3) The finding of the Finance and Administration Cabinet shall be final, except in

1 cases where the issuance and sale of bonds is proposed, in which cases the cabinet
2 shall submit its findings to the commission for final approval, modification, or
3 disapproval.

4 (4) Any capital construction project, the total cost of completion of which the Finance
5 and Administration Cabinet determines will exceed two hundred thousand dollars
6 (\$200,000), shall be contracted for on a competitive bid basis, and the execution of
7 the contracts shall be approved and authorized by the cabinet. When a capital
8 construction project has been approved as provided in this section, in whole or in
9 part, the cabinet shall prepare the plans and specifications, provide public notice of
10 invitations for bids, award the contracts, supervise the construction, and handle the
11 financial negotiations on behalf of the requesting state agency; or with prior written
12 approval, the cabinet may authorize a state agency to do so with delegated authority
13 of the cabinet.

14 (5) A capital construction project, the total cost of completion of which the Finance and
15 Administration Cabinet determines will not exceed two hundred thousand dollars
16 (\$200,000), may be performed by the employees of the requesting agency or by
17 individuals hired specifically for the project who shall be exempt from the
18 requirements of KRS Chapter 18A, if the project is approved and authorized by the
19 cabinet. Necessary materials and supplies shall be procured in accordance with the
20 standard purchasing procedures and policies of the cabinet as defined in KRS
21 Chapter 45A.

25 maintenance, improvement, or expansion of present correctional facilities on which
26 projects inmates are used. Any capital construction project to be performed by the
27 Justice Cabinet shall be approved and authorized by the Finance and Administration

1 Cabinet.

 3 of the Department of Fish and Wildlife Resources. Boundary surveys or surveys
 4 involving property lines shall be performed by or under the supervision of an
